## Experience

### Freelance Technician and Graphic Designer

May 4, 2023 to Present

- Diagnosed and repaired hardware and software issues in phones, laptops and computers, including troubleshooting and component replacement.
- Create logos, social media posts, t-shirt designs, mockup products, tarpaulins, and certificates.
- Customize designs to capture brand identities, drive engagement, and meet client needs.
- Utilize industry-standard graphic design software, such as Adobe Creative Suite, to manipulate images, create layouts, and refine visual elements.

### Abenson Ventures Incorporated (Graphic Designer/Specialist)

April 10, 2019 - May 3, 2023.

- Creates various marketing materials including brochures, flyers, website banners, printed banners, social media posts, logos, point of purchase displays, illustrations, infographics, and wall designs, contributing to boosted brand visibility.
  - Collaborated with the design team and marketing team to develop engaging graphic design solutions based on market trends, brand identity, and target demographics.
  - Leveraged Photoshop, Illustrator, InDesign, and Canva to produce marketing designs, leading to enhanced client engagement.
  - Offered proposals for crafting new key visual designs for upcoming campaigns.
- 

## Projects

### BMI Calculator

- Body mass index estimates body fat based on height and weight.
- Practicing JavaScript coding.

Repo: [github.com/lan29s/bmi-calculator.git](https://github.com/lan29s/bmi-calculator.git)

Link: [cif-portfolio.netlify.app/pages/bmi\\_calculator/index](https://cif-portfolio.netlify.app/pages/bmi_calculator/index)

### Calculator

- Simple calculator for basic arithmetic operations. Perfect for quick calculations without complex functions.
- Practicing JavaScript coding.

Repo: [github.com/lan29s/basic-calculator.git](https://github.com/lan29s/basic-calculator.git)

Link: [cif-portfolio.netlify.app/pages/basic\\_calculator/index](https://cif-portfolio.netlify.app/pages/basic_calculator/index)

## Tindog

- Responsive dog dating app with modern UI, built using HTML, CSS, and Bootstrap (frontend only).
- Practicing responsive front-end development hands-on through Udemy.

Repo: [github.com/lan29s/Tindog.git](https://github.com/lan29s/Tindog.git)

Link: [cif-portfolio.netlify.app/pages/TinDog%20Project/index](https://cif-portfolio.netlify.app/pages/TinDog%20Project/index)

## Dice Game

- Player One and Player Two roll dice, the player with the highest value wins.
- Practicing JavaScript coding with Udemy hands-on.

Repo: [github.com/lan29s/Dicee.git](https://github.com/lan29s/Dicee.git)

Link: [cif-portfolio.netlify.app/pages/Dicee/index](https://cif-portfolio.netlify.app/pages/Dicee/index)

## Drum Kit

- Play drums with a mouse or keyboard.
- Practicing JavaScript coding with Udemy hands-on.
- I enhanced the UI with animations.

Repo: [github.com/lan29s/DrumKit.git](https://github.com/lan29s/DrumKit.git)

Link: [cif-portfolio.netlify.app/pages/Dicee/index](https://cif-portfolio.netlify.app/pages/Dicee/index)

## Simon Game

- The Simon game is a classic memory game with four colored buttons.
- Practicing JavaScript coding with Udemy hands-on.

Repo: [github.com/lan29s/Simon-game.git](https://github.com/lan29s/Simon-game.git)

Link: [cif-portfolio.netlify.app/pages/simon\\_game/index](https://cif-portfolio.netlify.app/pages/simon_game/index)

## Keeper App

- Allows users to record plain-text notes and organize and edit.
- Practicing React with Udemy hands-on.

Repo: [github.com/lan29s/Keeper-app-React.git](https://github.com/lan29s/Keeper-app-React.git)

## St. Clare College Student Enrollment System

- These systems typically manage student enrollment, class schedules, grades, attendance, and other related administrative tasks within educational institutions.
- I started my programming journey by working with my first client.
- Developed using C# Windows Form.

Repo: [github.com/lan29s/St.-Claire-College-Student-Project-Forms.git](https://github.com/lan29s/St.-Claire-College-Student-Project-Forms.git)

---
